Name of my nurse:

Nurse office phone:

Patients treated with ENHERTU may be at risk for serious and potentially fatal side effects of lung problems (interstitial lung disease/pneumonitis).

Tell your doctor right away while receiving treatment with ENHERTU if you notice any of the following signs or symptoms:

- Cough
- Trouble breathing or shortness of breath
- Fever
- Other new or worsening breathing problems (e.g., chest tightness, wheezing)

Call or see your doctor or nurse right away or go to the nearest Emergency Department if you experience any of these lung-related signs or symptoms. Getting medical treatment right away may keep these problems from becoming more serious.

Where to find further information

Find the full Product Monograph that is prepared for healthcare professionals and includes Patient Medication Information by scanning the QR code below, visiting the Health Canada website (<https://www.canada.ca/en/health-canada/services/drugs-health-products/drug-products/drug-product-database.html>), the manufacturer's website (www.astrazeneca.ca), or by calling 1-800-668-6000.
